**Executive Summary**

Delivering the EU Edit deal remains the Government’s top priority and is the best ‘No Deal’ mitigation. But in line with the Government’s principal operational focus on national ‘No Deal’ planning, actions must now be taken locally to manage the risks of a ‘no deal’ exit.

To inform preparations, an EU Exit Operational Readiness Guidance has been developed and agreed with NHS England and NHS Improvement. This Guidance sets out the local actions that Providers and Commissioners of Health and Adult Social Care Services in England should take to prepare for EU Exit.

The CCG and Providers Business Continuity Plans are being reviewed in order to ensure the Plans are in place to maintain services as far as possible given what we currently know.

The CCG will continue to comply with any National Directives, follow the Operational Readiness Guidance Action Cards, implement the CCG Action Tracker and communicate effectively with our Partners whilst working hard to ensure we have ongoing insight into our own and our Provider Risks, the potential impacts and any further issues identified in the future as the situation evolves both Nationally and Locally.

<b>Recommendations</b>	To Note the actions being taken and current focus is around insight and preparedness – the CCG is unable at this time to provide assurance around the full mitigations of the risks of a No Deal Brexit.
